89.20

290.90

Note Oct. 30, 1876.

The use of the money received from the Becke fund was transferred by Professor Weylock from the photographs of the sun to the Astronomical Engravings. The above account is therefore to be regarded as cancelled. The amounts named (\$19.90 and \$89.20) are to be regarded as paid by Professor Weylock from the unrestricted funds in his hands other than the Becke Fund.
