Mildford Pa. 10g 4 June 7

My dear Sir:

I am finishing up
the Second volume of my Philoso.
phy & abridging it & arranging
it for use in colleges. For my
subscription list does not
narrate starting vol. 1.
Yet; while for Vols 2 & 3 I
can get a publisher & make them
even slightly remunerative.

I shall therefore have to arrange
my dedications differently & my
present idea is to include the
dedication to you in each
volume & then a second one

specimens of each, just as all
the manuscripts on Mount Olympus
are dedicated to the Holy
Trinity & the one I visited (to
St. Dionysius (who to the
mind of the monks was all
one with Dionysius) besides !!

I am dreadfully limited by not
being able to get the books I need
& if any of the following can at
this season be spared from your
library (you certainly ought to have
them all) I would return them in
the autumn.

the autumn
otherwise stated
Logik

they are all Logics unless
the new edition Have 1873
Fundamental Problems
Pure Logic.
Noetical Logic

Bergmann
Schuppe
Benno Erdmann.
