Chas. L. Parr Esq

3. Bedford Place  
Bloomsbury

Dear Sir,

I have handed your letter of  
application to the New Committee to  
the Hon. Secretary Mr. Scott, at the  
Meteorological Office, 116 Victoria  
Street, Westminster, and I would  
ask you to send me that gentleman's  
reply.

reference to an arrangement  
for your exhibiting pendulums  
at New Observatory. I would  
hope — in anticipation of his  
seeing some of the Committee on  
Monday evening — that the mor-  
ning of that day would not be  
an inconvenient time for you  
to visit.

I remain

Dear Sir

Yours faithfully,  
Samuel Jefferys
